3. Audit Committee

In accordance with section 359(5) of the Companies and Allied Matters Act, 1990, any shareholder may nominate a shareholder for appointment to the Audit Committee. Such nomination should be in writing and should reach the Company Secretary at least 21 days before the Annual General Meeting.

Chairman's Statement

I warmly welcome you to the 17th Annual General Meeting of Guaranty Trust Assurance plc, and present to you a review of our operating environment and a summary of the Company's performance for the financial year ended December 31, 2008.

Operating Environment

The global market encountered great difficulties in the area of financial distress, collapse of hitherto great financial institutions and general economic downturn unseen since the great depression of 1929.

Locally, the operating environment was characterized by a record dipping of the capital market, banking liquidity squeeze, falling oil prices, deteriorating exchange rate as well as the attendant consequences of the global economic crises.

The Capital market activities took a nose dive as the All Share Index (ASI) declined by 52.61% from its peak of 66,371.20 in March 2008 to 31,450.75 by the end of the year; the slide has been adduced to various reasons including the misunderstanding over the limitations on margin lending for stock trading, the 100,000 minimum trade to move stock prices, the plan to recapitalize stock broking firms, the earlier aborted plan to harmonize the financial year end of banks, increase in MPR from 9.50% to 10.5% and capital flight by foreign portfolio investors suffering from the pangs of the subprime crises.

The growth in the Nigerian economy slowed down in the year under review while developed economies slipped into a recession. The economy achieved a GDP growth rate of 6.4% in 2008 as against a 2007 growth rate of 6.5%. Agriculture, trade, financial services, manufacturing and telecoms sectors especially were the largest contributors to growth in the non-oil sector as the sector enjoyed a growth of almost 10%. The oil sector's share of total economic output continued to shrink albeit at a slower pace with adverse effect on the aggregate growth of the economy, partially because production was below quota for 2008.

Oil production was affected by the prevailing unrest in the Niger Delta and OPEC production quota cuts designed to stimulate the falling oil prices which fell from a peak of \$147.27 in July to below \$40 by the end of the year. Inflation increased to 15.1% as compared to 6.6% in the corresponding period of 2007 despite CBN's increase in MPR and other contractionary Monetary Policy measures designed to stem it. CBN interest rate was lowered from 10.25% to 9.75% by the MPC but the average 30-day NIBOR over the period was 13.99%. This increase was largely driven as much by these external factors as by continued domestic political inertia, stalled macroeconomic reforms and seemingly inadequate regulatory responses to an emerging domestic liquidity crisis.

The Insurance subsector has continued to witness some growth following the recapitalization exercise as a lot of emphasis is now placed on delivering much needed insurance products to the retail end of the market most especially the growing middle class.

Financial Results

I am glad to announce to you that in spite of the extremely harsh operating and investment environment encountered in 2008, we still delivered superior financial returns to our stakeholders. More importantly, our latest financials confirm our Company's huge stride in attaining leadership position in the insurance industry. The Company made a gross premium income of N4.14 billion for the financial year under review as against N2.06 billion recorded for the corresponding period in 2007. This represents an increase of 101% over the figure achieved for the previous year, whilst profit before tax stood at N2.0 billion as against N1.10 billion for the previous period. This represents a growth rate of 82%. Underwriting result for 2008 was N1.2 billion against N659 million in 2007, a remarkable growth rate of 82% which further confirms our consistent improvement in the quality of the core business of risk underwriting.

The growth in our total investment income of 54% from N1.3 billion in 2007 to N2.02 billion is largely attributable to the early diversification of our investment portfolio.

Share Capital

In order to shore up our capital base and increase our underwriting capacity, we commenced a Rights issue

The growth in our total investment income of 54% from N1.3 billion in 2007 to N2.02 billion is largely attributable to the early diversification of our investment portfolio.

Victor Gbolade Osibodu

Chairman

exercise and special placement in the year. We completed the special placement and successfully raised N4.7 billion whilst the Rights issue was concluded but we did not receive SEC approval for the money raised as at 31st December 2008.

Board of Directors

On the 3rd of July, 2008, Mrs. Yetunde Ilori was nominated to the Board of our company. I hereby welcome her to the Board and use this opportunity to thank my other colleagues on the Board for their support and devotion to the affairs of our company.

Subsidiary

During the year under review we established a non insurance subsidiary **Assur Asset Management Limited** (**AAML**) to complement our Insurance business and further maximize returns through long-term capital growth using research driven methods whilst ensuring and retaining the safety of the funds.

Dividend

Our commitment to deliver exceptional value for our stakeholders is further highlighted by our Board's approval for the payment of 15 kobo per share amounting to N 1.3 Billion based on the results for 2008 financial year. In setting this level of dividend, the Board has taken into account the company's strategic growth plans and long term financial stability.

Staff

Our staff remained among the brightest in the industry; the impressive result achieved this year was as a result of their tenacity and determination. They have truly displayed their continued loyalty, dedication and commitment. I wish to place on record the commitment of the board to the personal development and continued well being of every staff of the Guaranty Trust Assurance plc.

Future Outlook

There is no doubt that the current economic climate is severe but opportunities still exist as insurance penetration remains low and increasing Insurance awareness amidst the populace will open up huge retail business potentials.

We will continue with the development of more distribution channels in order to boost retail sales. To this end, we shall reinforce our bancassurance channels nationwide and commence the creation of an extensive agency network. We shall also seek to be a dominant underwriter of energy risks through enhanced capacity of our financial and human capital resources.

In conclusion, I would like to appreciate our esteemed customers and shareholders for their continued support and belief in the company

May the Lord in his infinite mercies continue to guide and reward our efforts with success.

Thank you

Mr. Victor Gbolade Osibodu

Chairman

From the Executive Suite

...our dream of building a great institution providing first class services to our customers and assuring their financial security with great financial strength and capacity, remains on track.

Great adversity births hope, strength and character

2008 was a year of unprecedented turmoil in the global financial services industry and economic downturn in the world's major economies. Giants in the financial services industry failed and collapsed whilst Central Banks across Europe and America scrambled to bail out many institutions thereby preventing systemic distress in their respective countries. The real sector didn't fare much better as companies sustained high losses and laid off staff in millions across developed economies leading to record levels of unemployment.

In Nigeria, we didn't escape the contagion. Oil price plummeted from a height of about \$150 per barrel in July 2008 to less than \$40 by year-end. The effect on our mono-product economy was instantaneous and dramatic. Our hitherto stable currency took a dip of 18.38% from \$1/N117.8625 to \$1/N139.5250 within a space of 4 weeks! Foreign investors who had besieged our capital market in the previous 2-3 years pulled out in droves with the resultant record drop of 47% in the Nigerian Stock Exchange All Share Index (ASI). This led to significant portfolio losses amongst institutional and individual investors alike across the country.

At Guaranty Trust Assurance, we however run a diversified investment portfolio that gives us flexibility in dynamic and rapidly changing market conditions. Our portfolio consists of investments in fixed income, equity and real estate markets with a fluid but conservative asset allocation policy. Therefore, in spite of the great difficulty encountered in the markets, our total investment and other income grew to N2.1 billion from N1.3 billion in 2007, a growth of 56%.

During the year, we also spent considerable resources in building our operational and service delivery platforms.

We added AssurPay, a payment module that enables our clients to pay their premium due at any GTBank branch across the country in a way that will ensure their account is updated within the same day. We also expanded our Bancassurance sites in GTBank to 80 branches across the six geo-political zones of the country. In addition, we commenced a pilot scheme of Bancassurance sales with First City Monument Bank. We are optimistic this new relationship will be beneficial to both parties.

We also deepened our relationships with existing corporate customers and developed new relationships especially in the public sector. We are grateful to these institutional customers and our key Brokers for their unwavering faith in us. Because of their kind patronage, we recorded another year of significant growth. Our Gross Premium Income rose by 101% from N2.06 billion to N4.14 billion whilst Premium Earned grew by 110% from N1.17 billion to N2.45 billion. Profit before tax grew from N1.1 billion to N2 billion, a growth of 82%.

Lastly, our Company retained the **A+** rating first received from Agusto & Co. in 2007. This rating remains the highest given to any insurance company in Nigeria.

With these, our dream of building a great institution providing first class services to our customers and assuring their financial security with great financial strength and capacity, remains on track. Indeed, we remain in the present but represent the future.

Directors' Report

Directors' Report

For the year ended 31 December 2008

The directors are pleased to present their annual report on the affairs of Guaranty Trust Assurance Plc ("the Company") and subsidiary companies ("the Group"), together with the audited financial statements and the auditor's report for the year ended 31 December 2008.

Legal form and principal activity

The Company was incorporated on 23rd June 1989 as a private limited liability company called "Heritage Assurance Limited" and issued with a composite insurance license by the National Insurance Commission in March 2004. The Company's name was changed to Guaranty Trust Assurance Limited in September 2004 following the acquisition of a majority share holding by Guaranty Trust Bank Plc, and changed again to Guaranty Trust Assurance Plc in March 2006 following the increase in number of members beyond the maximum required for a private company.

The Company's principal activity continues to be provision of risk underwriting and related financial services to its customers. Such services include provision of life and non-life insurance services for both corporate and individual customers.

The Company has two wholly owned subsidiaries, Assur Asset Management Limited and Barista Property Development Company Limited (a special purpose entity). Assur Asset Management Limited was incorporated as a private limited liability company on 9 January, 2008 and its principal activity involves provision of portfolio management services to both individual and corporate clients. Barista Property Development Company Limited was incorporated on 7 July, 2008 to provide property development and investment services to both individual and corporate clients.

During the year, the Company incorporated a special purpose entity, GTA Real Estate Limited whose principal activity was to provide property development and investment services to both individual and corporate clients. This entity was disposed of prior to the end of the year.

Operating results:

The following is a summary of the Group's and Company's operating results:

	Group <u>2008</u> N '000	Company 2008 N '000	Company <u>2007</u> N '000

Statement of Directors' Responsibilities in relation to the Financial Statements for the year ended 31 December 2008

In accordance with the provisions of Sections 334 and 335 of the Companies and Allied Matters Act 1990, the directors are responsible for the preparation of annual financial statements which give a true and fair view of the state of affairs of the Company and the profit or loss for the financial year.

The responsibilities include ensuring that:

- (a) appropriate internal controls are established both to safeguard the assets of the Company and to prevent and detect fraud and other irregularities;
- (b) the Company keeps accounting records which disclose with reasonable accuracy the financial position of the Company and which ensure that the financial statements comply with the requirements of the Companies and Allied Matters Act, 1990 and Insurance Act 2003;
- (c) the Company has used appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates, and that all applicable accounting standards have been followed; and
- (d) the financial statements are prepared on a going concern basis unless it is presumed that the Company will not continue in business.

Directors and their interests:

The directors of the Company who held office during the year together with their direct and indirect interest in the share capital of the Company were as follows:

	Number of Ordinary Shares		
	<u>31/12/08</u>	31/12/07	
Mr. Victor Gbolade Osibodu - Chairman	133,750,000	123,750,000	
Mrs. Yetunde Ilori	1,000,000	1,250,000	
Mr. Tosin Runsewe	29,962,500	25,863,636	
Mr. Tayo Aderinokun	158,750,000	158,750,000	
Mr. Segun Agbaje	15,000,000	15,000,000	
Mr. Kolapo Omidire	5,022,727	5,022,727	
Mr. Demola Odeyemi	8,400,000	8,400,000	
Mr. Victor Akinbayo	19,550,000	19,550,000	
Mr. Hakim Khelifa	Nil	Nil	

Retirement of Directors

None of the directors retired from the Board of the Company during the year.

Appointment of Directors

Mrs. Yetunde Ilori was appointed to the Board on 3 July, 2008.

Major Shareholding

The Company made a special placement of 3,750,000,000 ordinary shares of 50k each at N1.25 per share during the year. According to the Register of Members, no shareholder other than the under-mentioned held more than 5% of the issued share capital of the Company as at 31 December 2008:

	No. of Shares	% Holding
Guaranty Trust Bank Plc	6,449,026,789	73.70%
AfricInvest Limited	452,773,620	5.17%

Analysis of Shareholding

The analysis of the distribution of the shares of the Company at the end of the financial year is as follows:

Share Range	No. of Shareholders	% of Shareholders	No of Holdings	% of Holdings
1 - 1,000	2	0.2463	2	0.0000
5,001 - 10,000	4	0.4926	36,250	0.0004
10,001 - 50,000	44	5.4187	1,690,000	0.0193
50,001 - 100,000	51	6.2808	4,958,750	0.0567
100,001 - 500,000	175	21.5517	64,634,310	0.7387
500,001 - 1,000,000	297	36.5764	291,517,493	3.3316
1,000,001 - 8,000,000,000	239	29.4335	<u>8,387,163,195</u>	<u>95.8533</u>
Total			8,750,000,000	<u>100.0000</u>

Fixed Assets

Information relating to changes in fixed assets during the year under review is given in Note 9 to the financial statements.

Donations and Charitable Gifts

The Company identifies with the aspirations of the community as well as the environment within which it operates and made charitable donations to the under-listed organizations amounting to N189,500 (2007: N1,200,000) during the year as follows:

Organizations:

	N
Victoria Island Primary School	139,500
Kuramo Senior College, Victoria Island	50,000
	189,500

Employment of Disabled Persons

The Company operates a non-discriminatory policy in the consideration of applications for employment, including those received from disabled persons. The Company's policy is that the most qualified and experienced persons are recruited for appropriate job levels irrespective of an applicant's state of origin, ethnicity, religion or physical condition. In the event of any employee becoming disabled in the course of employment, the Company is in a position to arrange appropriate training to ensure the continuous employment of such a person without subjecting him/her to any disadvantage in his/her career development. As at 31 December 2008, the Company had no disabled persons in its employment.

Health, Safety and Welfare of Employees

The Company maintains business premises designed with a view to guaranteeing the safety and healthy living conditions of its employees and customers alike. Health, safety and fire drills are regularly organized to keep employees alert at all times. Employees are adequately insured against occupational hazards. In addition, the Company provides medical facilities to its employees and their immediate families at its expense.

Employee Involvement and Training

The Company encourages participation of employees in arriving at decisions in respect of matters affecting their well being. Towards this end, the Company provides opportunities for employees to deliberate on issues affecting the Company and employees' interests, with a view to making inputs to decisions thereon. The Company places a high premium on the development of its manpower. Consequently, the Company sponsored its employees for various training courses both in Nigeria and abroad in the year under review.

Contracts

In accordance with Section 277 of the Companies and Allied Matters Act, 1990, none of the Directors has notified the Company of any declarable interest in contracts deliberated by the Company during the year under review.

Acquisition of Own Shares

The Company did not purchase any of its own shares during the year under review.

Post Balance Sheet Events

The board of directors has proposed a dividend of 15 kobo per share (2007: 6 kobo per share) from the retained earnings as at 31 December 2008 on the issued share capital of 8,750,000,000 (2007: 5,000,000,000) ordinary shares of 50 kobo each subject to the approval of the shareholders at the next annual general meeting.

Auditors:

Messrs KPMG Professional Services have indicated their willingness to continue in office in accordance with section 357(2) of the Companies and Allied Matters Act 1990.

BY ORDER OF THE BOARD

23 January 2009

Report of the Audit Committee

For the year ended 31 December 2008

To the members of **Guaranty Trust Assurance Plc**

In accordance with the provisions of Section 359(6) of the Companies and Allied Matters Act 1990, the members of the Audit Committee of Guaranty Trust Assurance Plc hereby report as follows:

- We have exercised our statutory functions under Section 359 (6) of the Companies and Allied Matters Act, 1990 and acknowledge the co-operation of management and staff in the conduct of these responsibilities.
- We are of the opinion that the accounting and reporting policies of the Company are in accordance with legal requirements and agreed ethical practices and that the scope and planning of both the external and internal audits for the year ended 31 December 2008 were satisfactory and reinforce the Company's internal control systems.
- We have deliberated with the external auditors, who have confirmed that necessary cooperation was received from management in the course of their statutory audit and we are satisfied with management's responses thereon and with the effectiveness of the Company's system of accounting and internal control.

Independent Auditor's Report

To the Members of Guaranty Trust Assurance Plc:

Report on the Financial Statements

We have audited the group and separate financial statements of **Guaranty Trust Assurance Plc** ("the Company") which comprise the balance sheets as at 31 December 2008, the profit and loss accounts, statements of cash flows, value added statements for the year then ended, the statement of accounting policies, notes to the financial statements and the five year financial summary, set out on pages 21 to 63.

Directors' Responsibility for the Financial Statements

The Company's directors are responsible for the preparation and fair presentation of these financial statements in accordance with Statements of Accounting Standards applicable in Nigeria and in the manner required by the Companies and Allied Matters Act of Nigeria, the Insurance Act of Nigeria, and relevant National Insurance Commission (NAICOM) guidelines and circulars. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the group and separate financial statements give a true and fair view of the group and separate state of affairs of the Company as at 31 December 2008, and of its group and separate profit and cash flows for the year then ended in accordance with Statements of Accounting Standards applicable in Nigeria and in the manner required by the Companies and Allied Matters Act of Nigeria, Insurance Act of Nigeria and relevant NAICOM guidelines and circulars.

Report on Other Legal and Regulatory Requirements

Compliance with the requirements of Schedule 6 of the Companies and Allied Matters Act of Nigeria In our opinion, proper books of account have been kept by the Company, so far as appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from branches not visited by us. Additionally, the Company's balance sheet and profit and loss account are in agreement with the books of accounts.

6 February 2009 Lagos, Nigeria

Statement of Accounting Policies

Statement of Accounting Policies

The following is a summary of the significant accounting policies adopted by the Company and its subsidiaries (together referred to as "the Group") in the preparation of its financial statements. These accounting policies have been consistently applied for all years presented.

1. Basis of accounting

Life Business: The financial statements for life business have been prepared using the fund method.

General Business: The financial statements for general insurance business have been prepared using the annual basis of accounting and under the historical cost convention.

2. Basis of consolidation

i. Subsidiaries

The Group financial statements comprise the financial statements of the Company and its subsidiaries. Subsidiary companies are those enterprises controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the financial statements from the date that control commences until the date that control ceases. The consolidated subsidiaries are Assur Asset Management Limited and Barista Property Development Company Limited.

ii. Transactions eliminated on consolidation

Intra-group balances and transactions and any unrealized gains or losses arising from intra-group transactions are eliminated in preparing the group financial statements.

iii. Investment in subsidiaries

Investment in the subsidiaries is stated in the Company's separate financial statements at cost. Allowance is made for any permanent diminution in the value of investments in subsidiaries.

iv. Special purpose entities

Special purpose entities are entities that are created to accomplish a narrow and well-defined objective. The financial statements of special purpose entities are included in the Group's consolidated financial statements, where the substance of the relationship is that the Group controls the special purpose entity.

3. Cash and bank balances

Cash and bank balances represent the Company's balances held with banks in Nigeria and cash in hand.

4. Fixed assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided on a straight-line basis at rates calculated to write-off the cost of each asset over its estimated useful life, at the following annual rates:

Motor vehicles	25%
Furniture & fittings	20%
Office equipment	20%
Leasehold improvements	10%
Land & buildings	2%
Computer equipment	33.33%
Computers software	20%

Gains or losses arising from the disposal of fixed assets are included in the profit and loss account.

Gross premium

Gross premium is recognized at the point of attachment of risk to a policy before deducting cost of reinsurance

6 Net premium

Net premium represents the total amount invoiced to policy holders less reinsurance. It is recognized as income from the date of attachment of risks.

Claims expenses

All claims paid and incurred are charged against revenue as expense when incurred. Reinsurance recoveries are recognized when the re-insurer accepts liability for the claims and netted off claims expense.

8. Underwriting expenses

Underwriting expenses for insurance contracts are recognized as expenses when incurred, with the exception of acquisition costs, which are recognized on a time apportionment basis in respect of risks.

9. Deferred acquisition costs

Acquisition costs comprise all direct and indirect costs arising from the writing of insurance contracts. Deferred acquisition costs represent a proportion of commission and other acquisition costs, which are incurred during a financial period and are deferred to the extent that they are recoverable out of future revenue margins.

10. Management expenses

Management expenses are expenses other than claims, investment and underwriting expenses. They include salaries and wages, depreciation expenses and other non-operating expenses. They are accounted for on an accrual basis.

11. Trade debtors

Debtors are stated after deducting allowance made for specific debts considered doubtful of recovery. In accordance with the National Insurance Commission (NAICOM) guidelines, allowance is made for bad debts as follows:

Period outstanding	% Allowance required
Up to 3 months	Nil
3 - 6 months	25%
6 - 9 months	50%
9 - 12 months	75%
Above one (1) year	100%

12. Other debtors and prepayments

Other debtors are stated after deduction of amounts considered bad or doubtful of recovery. Subsequent recoveries are credited to the profit and loss account.

Prepayments are carried at cost less amortised amounts.

13. Foreign currency transactions

Transactions in foreign currencies are recorded in Naira at the rate ruling on the date of the transaction. Assets and liabilities in foreign currencies are translated to Naira at the rate ruling at the balance sheet date. All differences arising from the conversion of balances in foreign currencies to the Naira are taken to profit and loss account.

14. Technical reserves

These are computed in accordance with the provisions of Section 20, 21, and 22 of the Insurance Act 2003

as follows:

(a) General insurance business

Reserve for unexpired risks

In accordance with Section 20 (1) (a) of Insurance Act 2003, the reserve for unexpired risks is calculated on a time apportionment basis in respect of the risks accepted during the year.

Reserves for outstanding claims

In accordance with Section 20 (1) (b) of Insurance Act 2003, the reserve for outstanding claims is maintained at the total amount of outstanding claims plus 10% thereof to cover claims incurred but not reported at the balance sheet date.

Contingency reserve

In accordance with Section 21 (1) of Insurance Act 2003, the contingency reserve is credited with the greater of 3% of total premiums, or 20% of the profits. This shall accumulate until it reaches the amount of greater of minimum paid-up capital or 50 percent of net premium.

(b) Life business

General reserve fund

This is made up of net liabilities on policies in force as computed by the actuaries at the time of the actuarial valuation and an additional 25% of net premium for every year between valuation dates.

Contingency reserves

In accordance with Section 22 (1) (b) of Insurance Act 2003, the contingency reserve is credited with the higher of 1% of gross premiums or 10% of net profit.

15. Long-term investments

Ouoted investments

Quoted investments are stated at their revalued amounts. Differences between cost and revalued amounts are transferred to a revaluation reserve account. However, where the revalued amounts fall below the cost at the balance sheet date, allowance is made in the profit and loss account for such deficit.

Unquoted investments

These are stated at cost. Where in the opinion of the Directors the value of any unquoted investment falls below its cost, an appropriate allowance for diminution in value thereof is charged against the profit and loss account.

16. Trading properties

Trading properties are carried at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated cost necessary to make the sale. The costs of trading properties are determined on the basis of specific identification of their individual cost.

17. Short-term investments

Short-term investments are stated at the lower of cost or market value. The carrying cost is determined on an item by item basis. The amount by which cost exceeds market value (unrealised loss) is charged to the profit and loss account. Realised gains or losses on disposal of short-term investments are taken to the profit and loss account. Interest receivable on investments is accrued and credited to the profit and loss account.

18. Investment income

Investment income comprises income earned on short term deposits and income earned on trading of securities. It is accounted for on an accrual basis.

19. Investment expense

Investment expenses are expenses incurred in buying, holding and selling all types of investments. They are accounted for on accrual basis.

20. Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the period in which the dividend is approved by the Company's shareholders.

21. Taxation

Income tax expenses/credits are recognised in the profit and loss account. Current income tax is the expected tax payable on the tax income for the year using the statutory tax rate at the balance sheet date.

22. Deferred taxation

Deferred taxation, which arises from timing differences in the recognition of items for accounting and tax purposes, is calculated using the liability method. Deferred taxation is provided fully on timing differences, which are expected to reverse at the rate of tax likely to be in force at the time of reversal.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the associated unused tax losses and deductible temporary differences can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

23. Pension

The Company operates a defined contributory pension scheme for eligible employees. Employees and the Company contribute 7.5% each of the qualifying staff's salary in line with the provisions of the Pension Reform Act 2004.

24. Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

25. Segment reporting

A segment is a distinguishable component of the Company that is engaged in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company's formats for segment reporting are based on business segments.

26. Contingent liabilities

The Company provides financial guarantees and bonds to third parties at the request of customers in the form of bid and performance bonds or advance payments guarantees. The amounts reflected in the financial statements represent the maximum loss that would be recognised if counter parties failed completely to perform as contracted. Commission and fees charged to customers for services rendered are recognised at the time the services or transactions are effected.

27. Deposit administration

Receipts for deposit administration and other business of a savings nature are recognised as liabilities. Interest accruing to the life assurer from investment of the savings is recognised in the profit and loss account in the period it is earned while interest paid and due to depositors is recognised as an expense.

19 Guarantee and Other Financial Commitments

(a) Contingent liabilities

The Company provides financial guarantees and bonds to third parties on the request of customers in form of bid and performance bonds or advance payments guarantees. The N32,267,394 (2007: N382,186,000) reflected in the financial statements as contingent liabilities represents the maximum loss that would be recognised if counter parties failed completely to perform as contracted.

(a) The Nigerian Information Technology Development Agency (NITDA) Act was signed into law on 24 April, 2007. The Law stipulates that, "specified" companies contribute 1% of their profit before tax (PBT) to the Nigerian IT Development Fund, which will be managed by the Nigerian Information Technology Development Agency (NITDA). In line with the Act, the Company has provided for NITDA Levy at the specified tax rate. The provision made last year under creditors and accruals is considered adequate.

14,105	14,105	
120,937	120,937	48,461

(d) Details of directors' remuneration are as disclosed in Note 24(c).

28. Actuarial valuation

The latest available actuarial valuation of the life business funds was as at 31 December 2008. The book value of the life funds as at that date is equal to its net actuarial liabilities. The valuation of the Company's life business funds as at 31 December 2008 was carried out by HR Nigeria Limited (Consultants and actuaries). The valuation was done based on the following principles:

- (a) For all individual life policies, the gross premium method of valuation was used. Future expenses related to the business were allowed for by deducting 35% of the office premiums payable. The reserve for deposit based plans were taken as the amount standing to the credit of the policyholder at the valuation date plus the estimated value of the mortality risk;
- (b) For group life policies, the net liabilities for annual premium contracts were calculated in the same way as for individual business. An unearned premium reserve was included for group life policies;
- (c) For individual life policies, the valuation age was taken as the nearest age at the valuation date. The outstanding premium paying term has been calculated as the year of maturity minus expired duration. In all cases, an allowance has been made for premiums due between the valuation date and the next policy anniversary;
- (d) The valuation of the liabilities was made on the assumptions that premiums have been credited to the accounts as they fall due, according to the frequency of the particular payment,
- (e) The Mortality of Assured Lives A49/52 Ultimate Table was used in the valuation.
- (f) The valuation assumed an interest rate of 7%.

29. Contravention of laws and regulations

The Company paid the sum of N20,000 each as penalties to NAICOM for late filing of returns for the fourth (4th) quarter of the year ended 31 December 2007 for general and life business respectively.

30. Litigations:

The Company had no pending litigation as at year end.

31. Post balance sheet events:

The board of directors have proposed a dividend of 15 kobo per share (2007: 6 kobo per share) from the retained earnings as at 31 December 2008 on the issued share capital of 8,750,000,000 (2007: 5,000,000,000) ordinary shares of 50 kobo each subject to the approval of the shareholders at the next annual general meeting.

32. Prior year corresponding figures:

Certain prior year corresponding figures have been amended to conform with the current year reporting format.

33. Corresponding figures

No corresponding figures are presented in the group financial statements as the subsidiary companies were acquired during the year.

34. Segment information

Segment information is presented in respect of the Company's business segments which represents the primary segment reporting format and is based on the Company's management and reporting structure. No geographical segment information has been provided in these financial statements as there is only one geographical segment. Business segments charge and earn interest among them on a transfer pricing arrangement to reflect the allocation of assets and liabilities.

Business Segments

The Group operates the following main business segments:

Non-life (General) Business - Includes general insurance transactions with individual and corporate

customers

Life Business - Includes life insurance policies with individual and corporate customers

Asset Management - Includes portfolio management services to individual and private

customers

ADMISSION CARD

Annual General Meeting to be held on Thursday, June 11, 2009,at 10.00 a.m.
Name of Shareholder (in BLOCK CAPITALS)
Shareholder's Account No
Number of shares

IMPORTANT

- 1. Before posting the above form of proxy, please tear off this part and retain it. A person attending the Annual General Meeting of the Company or his proxy should produce this card to secure admission to the meeting.
- 2. A member of the Company is entitled to attend and vote at the Annual General Meeting of the Company. He is also entitled to appoint a proxy to attend and vote instead of him, and in this case, the above card may be used to appoint a proxy.
- 3. In line with the current practice, the names of two of the Directors of the Company have been entered on the form of proxy to ensure that someone will be at the meeting to act as your proxy. You may however wish to insert in the blank space on the form (marked*) the name of any person, whether a member of the Company or not, who will attend the meeting and vote on your behalf instead of one or other of the Directors named.
- 4. The above form of proxy, when completed, must be deposited at the office of the Registrar, GTB Registrars Limited, 7, Anthony Village Road, Anthony, Lagos, not less than 48 hours before the time fixed for the meeting.
- 5. It is a requirement of the law under the Stamp Duties Act, Cap. 411, Laws of the Federation of Nigeria, 1990, that any instrument of proxy to be used for the purpose of voting by any person entitled to vote at any meeting of shareholders must bear a stamp duty of twenty (20) kobo.
- 6. If the form of proxy is executed by a Company, it should be sealed under its Common Seal or under the hand and seal of its attorney.
